

Welcome to Virtual School

Grade 4, Grade 5, Grade 6

We are so excited to begin this learning journey with you and wanted to take some time to share some important information and activities with you to get you started.

	<p>One of the most important things you need to do in order to access all of the Virtual Learning tools is login to Chrome! This video will walk you through, step by step, how to do this!</p> <p><b>If you don't have a device be sure to contact your Virtual School administrators ASAP!</b></p>	
	<p>Getting to know each other virtually is a little different than in class. Here is an activity for you to do today so that you are prepared to introduce yourself to your teacher and classmates tomorrow!</p> <p>We all have a "Name Story", listen to the story, <a href="#">Alma and how she got her name</a>, about a little girl who learns the story of her name.</p>	<div></div> <p><a href="#">Click here for a French option!</a></p>
	<p>Having a Growth Mindset means you believe that you can learn anything that you put your mind to. It is important to develop a growth mindset. Watch this video to learn more about what it means to have a Growth Mindset.</p>	
<p><b>What patterns do you see?</b></p> <ul style="list-style-type: none"><li>Look at the pattern to the right. Describe what you see.</li><li>What might the next term in the pattern look like?</li><li>What might a far term in the pattern look like?</li><li>What might term 8 look like?</li></ul> <p>Be prepared to share your thinking with your class later in the week.</p>		<div></div> <div></div>
<p><b>The Four 4s</b></p> <p>Can you find every number between 1 and 20 using only four 4's and any operation?</p> <p>For example: <math>4 \times 4 + 4 - 4 = 16</math></p> <p>How could you make the number 14? What about 6? Keep going! Keep track and be ready to share this week. Remember persevere!</p> <p><i>We will leave you with this message from Kid President!</i></p>		<div></div> <div></div>
