

Welcome to Virtual School

Kindergarten / Grade 1

We are so excited to begin this learning journey with you and wanted to take some time to share some important information and activities with you to get you started.

	<p>One of the most important things you need to do in order to access all of the Virtual Learning tools is login to Chrome! This video will walk you through, step by step, how to do this!</p> <p><b>Many more tech tutorials will be shared via your child’s teacher.</b></p>	
	<p>Getting to know each other virtually is a little different than in class. Here is an activity for you to do today so that you are prepared to introduce yourself to your teacher and classmates tomorrow! Watch the video to see Mrs. Willms explaining the activity.</p> <p>We all have a “Name Story”, listen to the story, <a href="#">Alma and how she got her name</a>, about a little girl who learns the story of her name.</p>	
	<p>Having a Growth Mindset means you believe that you can learn anything that you put your mind to. It is important to develop a growth mindset. Watch this video about The Power of Yet to see how a growth mindset works!</p>	
	<p>We can represent numbers in many different ways. A routine we will use in class is called “Number of the Day”. Today’s number is <b>10</b>. Represent <b>10</b> in as many different ways as you can (you can use paper and pencil as well as objects found around the house). When you are finished, take a picture of your work so you can share with your class later in the week.</p> <p>Try playing this game with someone at home today. We will talk about it tomorrow during our first class! <a href="#">FIVE FRAME RACE</a></p>	
	<p><b>What patterns do you see?</b></p> <p>Have a few ideas ready to share with your class throughout the week.</p>	
<p><i>We will leave you with this message from Kid President!</i></p>
